Dear Mr. Weisburg,

I am writing a book on the assassination of John F. Kennedy. I have two of your books and am saving up for your other three. I would like to purchase (if it is not too much, for I am only fourteen) or borrow at least some of your unpublished material. It might be added that I do not believe the Warren Report, and I have just written to Preident Ford and demanded to know why he took the top secret executive session transcript of January 27, 1964, changed it, why he was not charged with this federal crime, and why he lied to the Senate Judiciary Committee. Most of these demands were based on your conclusions in WHITEWASH IV and POST MORTEM. Your co-operation will be greatly appreciated.

Sincerely,

Lu Sattan
